

Welcome !

Beyond The Mic (BTM) Performing Arts Academy helps prepare talented young people for careers in the entertainment business in an on set or classroom setting. We offer workshops, group discussions and other educational sessions, taught by industry professionals, to train new talent for the industry. But there are larger benefits as well; attending our Academy provides focus, builds confidence and encourages positive role models. We help teenagers mature into young adults by empowering them to work for their dreams.

The Academy is based in Atlanta and has expanding to other Cities and States. This will also allow us to extend apprenticeship programs in behind-the-camera careers like directing, cinematography, editing, costume design, special effects, and more for upcoming film and TV productions. We also cast and operate workshops nationwide because the superstars and creators of tomorrow could come from any state. Even while training in acting, modeling, and other entertainment careers the Academy is also dedicated to helping students achieve their primary educational goals. We hope your experience with the BTM Performing Arts Academy will be rewarding and positive to your life and career.

Sincerely,

Demarcus Holloway
Academy Director

KIDPRENEUR\$ with BIG Ideas!

Young Entrepreneurs

Youth entrepreneurship programs prepare youth to develop businesses and economies and be responsible individuals by acquiring critical goal setting, time management, leadership and interpersonal skills.

Communities benefit from this program because our youth entrepreneurs create jobs, provide needed goods and services to the community and lead efforts to revitalize the community. Our program offer a plethora of benefits, including financial education, role models and the necessary tools to successfully operate a business.

We will offer youth an opportunity to take risks, manage the results and learn from the outcomes while also motivating youth to be productive and engaged in their communities.
